KSIS Contacts:

**Please share this information with district personnel responsible for maintaining student transportation records.**

The Audit End-Dated T-Code Record ad hoc was published to districts on Tuesday, February 19. This ad hoc identifies students whose most recent transportation code record has been end-dated prior to the end date of their enrollment record.

The ad hoc will list:

- actively enrolled students with end-dates on their most recent t-code record
- withdrawn students whose most recent t-code record was end-dated prior to their withdrawal date

The new ad hoc should be used in conjunction with the existing state-published Audit Missing T Code and Audit Overlapping T Codes pass-through queries to assist in maintaining accurate student transportation records. The system administrator should share this ad hoc with appropriate district personnel.
